Chicago, Oct. 8 (Special).—Wheat here was slow and a little lower to-day. December closing 140 under Friday: May 1/4 to 1/4c, under. The October however, was firm, closing just where it did Friday 634c. New-York was firm, not showing any de-cline, but the Northwestern markets were weak Minneapolis and Duluth 1/2 to 1/4c. lower on cash. There has been a sudden flattening out of the professional speculation here within two days because the Internal Revenue Department has informed the scalpers that they must pay tax on the trades they have been transferring to escape tax. With the scalper cutting his operations in two, the specula-tive market, which was small before, becomes almost no market at all. The dulness to-day certainly had much to do with the easier tone. December opened at 62%, sold between 63, sellers, and 62%@ 62%c. and closed at 62%c. Although puts and calls Friday night were only %c. spread, the market did not get outside of those narrow limits. Liverpool was 4d lower, a bearish suggestion in view of the slight rally here Friday. There was a firm sample market and a fairly good cash demand. New-York reported an excellent cash business there for export, forty-three loads. Exports for the week made a large total, 5,397,000 bushels; so did the primary receipts for the week, 10,800,000 bushels. which is a record-breaking figure. It is expected the stocks here will increase about 700,000 bushels for the week, and that the visible supply will in crease at least 1,500,000 bushels. The trade expects an increase on passage and liberal world's ship

ments. The Northwest to-day had 1,112 cars, against 1.14 last year, but the Northwest complains of a

car famine. Seaboard clearances to-day were only 185,000 bushels. The market closed at about puts. Corn was as dull as wheat, the fluctuations just

Seaboard clearances to-day were only

as narrow, less than 4c., and the close was just shade under Friday. December closed at Friday's figure, 29%c.; the May showed 14c. loss, selling at 31%c. and at 31%c., and closing at 31%c. Receipts were 816 cars, with 1,015 estimated for Monday. Liverpool was 4d. higher. Scaboard clearance were 214,000 bushels; clearances from the seaboard for the week, 3,364,000 bushels. New-York reported forty-one loads for export to-day, and shipping sales from here were 250,000 bushels, although lake rates were up to 2c. on corn. The weather keeps favorable West. Everything next week depends or the Government report, which is due Monday. The

bulls hope it will drop the condition considerably, There was some liquidation by oats holders. Pacual, for instance, was a moderate seller, Prices lost 14c, to 3c. December closed at 214c. May opened at 225c., and closed at 225c. Receipts were 416 cars; the estimate for Monday was 530 cars. The Government Monday announces the yield per acre, and it is expected that the total will be raised from September. There was a fair cash business to-day. Seaboard clearances were 113,000 bushels. Provisions were very slow, and, largely because of that, were slightly lower. Pork lost 10c., lard and riba, 5c. The bulletins in regard to yellow fever from Mississippi were more numerous, and, if anything, more disturbing. Speculation is suffering in the same way as in grain, and partly from the same cause, the tax. Hogs to-day were 15,000; the estimate for next week, 160,000. Meat shipments for the week were 10,518,000 pounds; the lard almost 15,000,000 pounds.

On the curb puts on December closed at 625c; calls, 634c. Puts on December corn, 225c.; calls, 2946,296c. Puts on May, 315c.; calls, 314,6313c. Pacaud, for instance, was a moderate seller, Prices
